SKILLS

Languages: React ,JavaScript ,Tailwind CSS ,HTML, CSS, Ajax, Axios, Bootstrap, SCSS, PWA, Web APIs

Programs: VScode, Git, Github

SUMMARY

Hello, I'm Mohammad, a 16-year-old junior front-end developer with a passion for crafting beautiful and functional web experiences. With a solid foundation in HTML, CSS, JavaScript, and currently exploring React, I strive to bring designs to life through clean and efficient code.

PROJECTS

- **Mac os in the web**   **Oct 2020 - Present**

  - Developed a web-based Mac OS simulator using HTML, CSS, and JavaScript.
  - Integrated interactive window management and various apps for a realistic experience.
  - Responsive design for seamless use across devices.
